Creating Captions Manually or with Camtasia

Creating your own captions can be time-consuming. Below are some tips that might help make the process quicker.

When Creating Your Own Videos

After creating a PowerPoint presentation, use Camtasia to record your narration instead of PowerPoint. Use the voice training feature to enable Camtasia to create more accurate captions from your voice. *Please note: Captions autogenerated by Camtasia are usually not accurate because it takes at least 4-5 hours of voice training for the system to learn your voice. It might be easier and faster to allow YouTube to caption your videos, or to use oasq*
